---------	----------------	----------------

All Grab Bars are made with stainless steel and come in 1½" diameter. Other diameters are available in 1¼" and 1" but may not meet building or state codes. All Grab Bars have 14 gauge thick, 3" diameter ends. Strong yet flexes slightly during installation to reduce the possibility of tile cracking. 1½" space between wall and grab bar. ADA approved.

Shipping: Some items are too large to ship UPS and must go truck, these items are marked with this symbol.

Options Available at an Extra Charge, please call for price.

Peened: texture is achieved with metallic balls shot with high pressure air jet on the surface of the metal, which produces slight indentations.

Anti-Slip: is a non-slip coating applied to the surface of the bar.

The WingIt™

The Worlds Strongest Fastener for Grab Bars. Allows for Installation of Grab Bars into Almost Any Wall!

The WingIt™ can reduce the cost of retrofitting a grab bar up to 70% while allowing for freedom of placement in both new and existing construction. Dry wall, tile, and acrylic or fiberglass tub surrounds are some of the walls that the WingIt™ can be utilized. Freedom of design: WingIts™ allow for grab bar installation to occur at any time during the building process. Architectural changes or lack of communication between the building trades will not affect the grab bar installation process. There is not any reinforcement to miss, installation of the WingIts™ can be done after the bathroom fixturing has been set.

Features:

- › Waterproof seal - Incorporates 3M® VHB Tape
- › No blocking or studs needed
- › No need to tear open and reconstruct walls
- › Can be installed in all framed walls
- › In sheet rock and ceramic tile, WingIts hold up to 1000lbs.
- › Meet and exceed all building codes and ADA Requirements
- › Only legal alternative to 2x10 blocking

WingIts™

WingIt with screw backed out.

WingIt installed and tightened down.

WingIt Installation needs

- WingIt, specify 4" long screw or **220-232 \$30.00**
- 5" long screw or **220-232-05 \$32.00**

Over 400 lbs.,
 swinging from a grab bar
 installed into 1/2" sheet
 rock and ceramic wall
 tile with the WingIt
 Fastening System.
**WingIts Hold Up
 To 1,000 lbs.**

For use with grab bars on preceding pages or where specified. Special flanges are needed (no charge).

- › Integrated dishes for soap and shampoo
- › Soft cover for added safety
- › Turn knob for easy adjustment
- › Oversized handle provides additional stability, making bathing safe and secure

Clamp On Tub Rail 224-115 \$82.78

Extend A Hand

Extend A Hand is a product that rewards the individuals with added safety and stability. This product is used in "at-risk to fall" areas in your home. Falls in the home cause additional medical expense and are a main reason for people to seek assisted living alternatives. Extend A Hand is preferred for assistance in maneuvering through a "at-risk-to-fall" area of your home, cottage, boat, garage, RV or hot tub area. Extend A Hand folds out and locks 12" from the wall, plus between the locking extension is a conventional grab bar. With Extend A Hand engaged this grab bar is easier to reach. This product will give you added safety for maneuvering in and out of the bathtub. Once inside you can still use the Extend A Hand for balance assistance while showering. If you don't need the extension it folds down out of the way. Extend A Hand is made with powder coated aluminum and all stainless steel mounting hardware. The rust free materials allow it to be mounted in shower or hot tub areas. Extend A Hand can withstand over 600 lbs. of sustained weight directly on the 12" easy lift auto-locking extension armature.

Extend A Hand is ADA & ADAAG compliant. It has passed NAHB testing for ASTM F446-93. Extend A Hand is a DME Medicare registered device.

- Black, 2" **229-006** **\$97.65 per roll**

Safe-Solution® Anti-Slip Treatment for Tile Floors and Steel-Enameled Bathtubs

What is Safe Solution?

The Safe Solution is an exclusive, proprietary product providing unsurpassed anti-slip qualities. It is biodegradable and environmentally safe. It's a three component chemical solution treatment designed to increase traction by creating microscopic channels in most hard mineral surfaces; such as: ceramic tile, clinker/quarry tile, porcelain tiles, granite, and steel-enamel bathtubs.

The Safe Solution:

Is a treatment, not a paint or coating, that is applied to non-porous hard mineral surfaces. Prior to the application of the Safe Solution, when water or grease puddle on these surfaces, you were actually hydroplaning on the film of water or contaminants. After the Safe Solution Anti-Slip Treatment System is applied, a microscopic channel is created for the water and oils to be disbursed from under foot, allowing you to make better contact with the surface at all times. "The Safe Solution dramatically increases traction by increasing the coefficient of friction."

The Maintenance Solution™:

Is an antibacterial, nontoxic, high performance, multipurpose cleaner. It's formulated to be used from the toughest commercial applications to cleaning windows. Its dilution capabilities make it a cost efficient and effective daily cleaning regimen for a myriad of industrial, commercial, and residential uses. Recommended for cleaning floors and tubs treated with "Safe Solution".

It is truly Amazing!

**We have testimonials from:
 Best Western, Domino's Pizza,
 DoubleTree Hotels, Holiday
 Inn, Howard Johnson, Ramada,
 Super 8 and more.**

- 24 lb, 30"x60" **199-923 \$196.53**

Adjustable Stop Banner

This durable coated nylon banner presents an imposing visual barrier. It's sure to deter wandering residents from entering restricted areas. Adjustable up to an opening of 60" wide. Two or more can be easily joined to span wider openings. Attaches with the provided velcro or screws.

Adjustable Stop Banner **193-135** **\$26.67**

Fall Prevention Monitor

The Safe•t Mate fall prevention monitor has been designed to overcome the pitfall of others on the market. Many monitors are expensive yet unreliable. One fall and they break. Some are less costly but are not designed or intended to be used as patient fall monitors. This monitor incorporates durability & versatility into an attractive, remarkably economical package. Features include: 1) Custom stainless clip that mounts to bed, wheelchair or walker without the need for additional mounting hardware, 2) Slide cord that adjusts for chair or bed use, 3) Pull away magnetic disc design allows for a variety of mounting positions. A 9 volt battery is included.

Fall Prevention Monitor **193-132** **\$25.00**

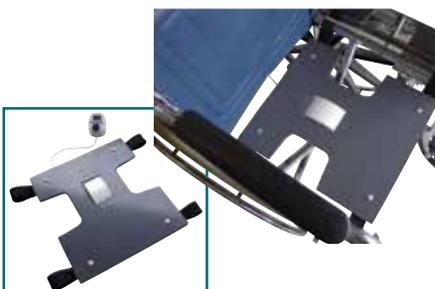

No more Disposable Sensor Pads!

Under-Seat Wheelchair Fall Monitoring System

Typical sensor pad systems are fraught with problems such as; limited life from wear, kinking, shifting out of position, and the infection control issue of exposure to fluids. The unique location of the Safe•t mate under-seat sensor unit eliminates all of these problems and there is nothing disposable about it, which makes it extremely cost-effective! Our complete system, which includes the under-seat sensor and the alarm unit, is less expensive than some disposable sensor pads alone! Beyond this, the under seat unit is guaranteed for life from manufacturing defects! The under-seat unit is fully adjustable to fit any width wheelchair and is compatible for use with seat cushions. The detachable alarm box features a full size on/off switch and a 95 db horn. A 9 volt battery and easy to follow installation instructions are included.

Fall Monitor **193-155** **\$83.33**

Adjustable Drop Seat with Integrated Alarm

Start with a fully adjustable solid drop seat suspended by steel hangers for custom positioning. Add an integrated alarm unit for fall prevention and you arrive at the ultimate package, All in one! Add to this, the alarm switching mechanism is Guaranteed For Life! A cost effective alternative to disposable sensor pad systems. The rugged alarm unit features a 95db horn and stainless steel mounting clip. A 9 volt battery is included.

Drop Seat with Alarm **193-133** **\$107.14**

The Wheelchair Anti-Rollback Device

This patented device is the industry standard for thousands of facilities nationwide. The device works completely by spring tension. A padded lever beneath the seat is depressed when the occupant is seated. This lever is connected to a pair of stainless steel brake arms that are held just off the surface of the rear tires. As the occupant begins to lift weight from the seat, the spring force causes the lever to rotate upward, in turn the brake arms rotate down to engage the tires. The greater the rearward force on the chair, the greater the braking power. The design is discreet and blends into the chair to become a dignified, non-punitive fall intervention. Heavy seat cushions are not a problem because each anti-rollback device includes an easy to install kit that compensates for the additional cushion weight. The chair can be collapsed for transport or storage. The standard device fits chairs 16"-20" wide and from full to hemi height. A 9 volt battery is included.

Anti-Rollback Device

Standard	193-136	\$142.86
22" and 24" Wide Chairs	193-129	\$142.86
With Ambulation Monitor	193-137	\$197.37

Wheelchair I.D. System

This product manages the problems associated with patient specific wheelchair requirements. New employees or staff who float are unfamiliar with the accessories required on particular wheelchairs. This system records all pertinent information on a removable vinyl sticker adhered to an easy to install bracket. 10 brackets with roll of 50 labels.

I.D. System **193-131** **\$20.00**

Ocelco Pull String Monitor

The newly redesigned Ocelco string monitor provides unparalleled value that is rich in features and low in cost. The case is constructed of a durable ABS plastic that can withstand the rigors of institutional use. All the alarm settings are located inside the battery compartment making the monitor compliant with JCAHO standards. The mounting clip is now made of an indestructible stainless steel and is Guaranteed Not To Break! The pull cord is adjustable in length. A new unique alarm tone provides differentiation from other alarms in the facility, such as door or wandering alarms. The battery compartment features a hinged design that is permanently attached to the case. No more lost battery covers! The cover also features a dual function closure, including a snap-to-close design as well as a screw for increased tamper resistance.

Posey

GSS Deluxe Cushion

Posey GSS Cushion incorporate LiquiCell bladder technology that offers superior protection against shear and friction. The low viscosity fluid filled bladders are incorporated into the cushion cover and utilize a series of strategically placed baffles that controls the flow of the fluid helping to dramatically reduce tissue shear stress. The GSS Deluxe Cushion's gentle contour provides comfort and helps reduce forward sliding, and is constructed of comfortable and durable molded polyurethane foam. The cushion has been designed so that it's edges can rest on the wheelchair frame while the flat bottom provides a level seating surface. The SoffTICK Supreme's cover is a durable, comfortable, and waterproof 4-way stretch material with a non-skid bottom to prevent the cushion from sliding forward. Meets CA#117 flame retardancy standards.

ROHO Positioning and Therapeutic Seating System Products

The MOSAIC cushion is especially suited for users who require a cushion for basic level skin protection, support and comfort. Using air flotation technology, the MOSAIC cushion is not only comfortable, but the use of interconnected air cells to distribute forces evenly across the cushion allows it to be used effectively for low risk skin protection. The Roho Mosaic 3" polyvinyl Cushion has interconnected air cells that are easy to setup, inflate and adjust. The Roho Mosaic is designed to provide a comfortable, functional and stable sitting environment. Washable, incontinent cover included.

Mosaic 3" Polyvinyl Cushion **\$104.00**
Specify size when ordering (i.e. 16" x 16") **707-138-SZ**

For individuals who require special positioning of the pelvis or thighs and risk of skin breakdown, the Quadro, with 4" cell height and air in place progressive positioning is the cushion of choice. The Quadro cushion with the Isoflap valve open, provides the same therapeutic valve as a single compartment high profile cushion.

Quadro Cushion **\$357.00**
Specify size when ordering (i.e. 16" x 16") **707-501-SZ**

Contour designed for more natural seating position. Promotes pelvic and leg positioning. Comes in 2" cell height.

Pre-Shaped Foam Base Cushion **\$342.00**
Specify size when ordering (i.e. 16" x 16") **707-503-SZ**

With 4" cells, the High Profile is the cushion of choice for individuals who suffer from ischemic ulcers (pressure sores) or who have a history of tissue breakdown.

High Profile Cushion (single valve) **\$397.00**
Specify size when ordering (i.e. 16" x 16") **707-506-SZ**

The Low Profile single compartment cushion with 2" cells offers active users protection against skin breakdown.

Low Profile Cushion (single valve) **\$379.00**
Specify size when ordering (i.e. 16" x 16") **707-507-SZ**

The contoured design combined with the simple operation of the ISOFLO® Memory Control™ Unit provides a new level of postural control and stability that has never been achieved in an air cushion. The contoured design positions the pelvis back in the wheelchair, and centers the user comfortably in the middle of cushion. The ISOFLO Memory Control Unit locks air into each of the four quadrants, providing stability by minimizing side-to-side and front to back motion.

Contour Select Cushion **\$357.00**
Specify size when ordering (i.e. 16" x 16") **707-509-SZ**

Solid Back Insert

Dual Pad Steerable Knee Walker with Basket

Specifications:

- › 8" casters are ideal for indoor/outdoor use
- › Deluxe dual braking system
- › Durable, steel frame with brown vein finish tool free height adjustment
- › Ideal for individuals recovering from foot surgery, breaks, sprains, amputation and ulcers of the foot
- › Knee walker can be steered for increased maneuverability
- › New, two-piece padded leg pad provides comfort
- › Removable front basket

Knee Walker with Basket 240-471 \$178.99

Pediatric Glider Walker

- › Aluminum frame
- › Comes with adjustable handles and legs that make this walker extremely versatile to accommodate virtually any physical requirements
- › Flat-free tires allow for both indoor and outdoor use
- › angled handle on pediatric model
- › Wide base provides additional stability

Pediatric Glider Walker 240-472 \$89.95 DISC.

UpRise Onyx Folding Walker

Combination of folding walker and rising aid all in one. The secondary handles provide stable assistance from a seated to a standing position. Attractive, upscale Onyx finish. Single release folding mechanism is designed to aid users with limited hand dexterity. Can be used as a portable toilet safety frame. Durable aluminum tubing provides strength while remaining lightweight. Adjustable height fits a broad range of user heights. Contoured, plastic grips for enhanced comfort and a secure hold. Designed to meet the requirements of HCPCS code: E0135.

Specifications:

- Width inside hand grips: 18"
- Width inside rear legs: 23"
- Overall Width: 26"
- Height Adjustment: 5'4" - 6'2"
- Weight Capacity: 400 lbs.

UpRise Walker 240-106 \$47.50

Side Walker

Designed for individuals with the use of only one hand or arm. Lighter than a walker and more stable than a cane. Height adjustment 29.5" to 34.5". Folds easily with one hand. Ideal for users who do not require a walker but need a wider base for support.

Side Walker 241-304 \$32.33

Pediatric Gait Trainer

The Trekker Gait Trainer can be used in the anterior and posterior position. The directional lever allows either forward and reverse mobility or only forward mobility, depending on the needs of the user. The variable resistance controls the speed of the rotation of the wheel, swivel casters can be locked to non-swivel, and the brakes lock as well to prevent the unit from moving. The height can be adjusted in 1" increments

Pediatric Gait Trainer 240-502-54 \$600.20

Dual Release Folding Walker

Easy to locate/use red button release can be operated by fingers, palm, or side of hand. Cross braces are located near hand grips to allow for full stride. Sturdy 1" diameter anodized, extruded aluminum tubing construction ensures maximum strength while remaining light-weight. Walkers with wheels include rear glide tips, allowing use on all surfaces.

Ortho-Biotic® Three Position Recliner Model 574G

LUMEX[®]
A Graham-Field Brand

New blow molded table can either slide on or off, or can be locked in one of five positions. The model 574G sets the industry standard for recliner design in long term care marketplace. Three easy to attain positions: sitting, elevated leg or full recline. Contoured seat back and articulating headrest maximizes individual comfort requirements. Flex-O-Lator seat virtually eliminates bottoming out. Welded heavy duty steel frame withstands long term use. Optional accessories include: winged headrest, side bolsters and I.V. pole attachment.

Winco 5670 XL Room Chair

Call For Available Colors

The new 5670 is an XL version of the 5580 room chair and adds all the benefits of the urethane arm chair with a wider seat and higher weight capacity. The XL version retains the beauty and practicality of the urethane arm chair yet accommodates larger patients with dignity and unmatched comfort. Suitable for patient rooms as companion chairs, in waiting areas, in the home environment or anywhere chair a higher style comfortable and durable chair is desired.

The Model 5670 is available with dual side tables and fixed feet in place of the casters. Standard black armrests are made of soft, durable urethane or choose from available armrest options in two different widths of beautiful contoured wood arms. The wood arms are available in warm shades of honey or walnut to complement the vinyl color or room decor as desired.

These Winco recliners feature the function, durability, cleanability and most of all the unmatched comfort you have come to expect from Winco in a beautiful look and design you'll be proud to place anywhere, including your living room.

Rock King Wheelchair X3000

Rocking

285-500-CL

Features:

Upright Position

Ideal for seating at dining and activity tables.

Adjustability

Ergonomic design supports head, shoulders, lower back: adjustable seat provides leg comfort, aids self-propulsion.

Comfort

Crypton padded seat is designed for extended sitting and effortless cleaning. Reversible cushion for your personal preference.

Safety

Greater stability and support can reduce or eliminate the need for protective restraints.

Rocking

A simple flip of a lever turns the unique wheelchair into a rocking chair.

Quick Angle Adjustment

Allows proper positioning and spring tension.

Arm Clearance

Prevents bumping elbows during self-propulsion.

Tilt Position

Great for napping, reading and conversation; also prevents pressure ulcers.

Side Supports

Height adjustable support to prevent slouching.

Specifications:

Seat Height from Floor
(Adjustable in 1-inch increments): 19" in.
Overall Width: 28.5" in.
Chair Weight (no accessories) 63 lb.

Overall Length (without footrests): 32" in.
Seat Width: 20" in.
Seat Depth: 16" in.
Height of Backrest from Seat: 32" in.

Multi-Ply™ Variable Density Sleep System

Mason's Multi-Ply™ Series offers therapeutic support through a variable density sleeping surface that assists in the prevention and treatment of pressure sores. Each mattress in our series provides low interface pressure and greater air circulation through its specially designed foam core, while comfortably supporting the patient. All mattresses are engineered to provide years of trouble free use.

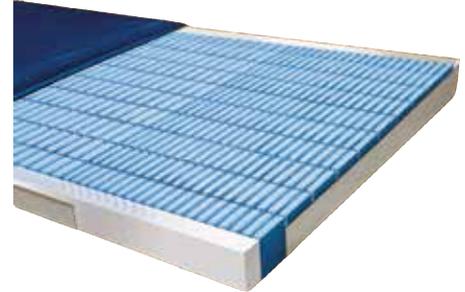

ShearCare 500 Select

This three zoned mattress is comprised of 670 individual cells that are independent from one another. This design allows the mattress to conform to the patient's contour & customize support as the patient moves. Superior pressure reduction is achieved by varying cell depths throughout the mattress zones.

ShearCare 500

36"x84"x5³/₄"

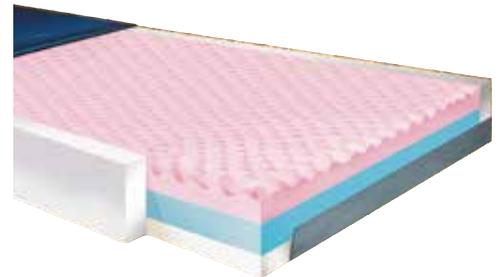

200-832 \$205.55

ShearCare 700 Premium

Three pressure relieving zones with a specifically designed top layer of precision cut, flat-top high density foam. The ShearCare 700 increases air circulation throughout the mattress system, reducing heat build-up between the patient and sleeping surface. Mattress is fully reversible end-to-end, increasing product longevity.

ShearCare 700

Standard Care Foam Mattress

Features:

- › Effective for the prevention of pressure ulcers
- › Nylon cover is fluid proof, flame retardant, antimicrobial, antistatic and easy to clean
- › Meets California technical bulletin #117 flammability requirements, optional California #129 and California #603 flame retardant available
- › Designed to meet the requirements of HCPCS code: E0184
- › Weight Capacity: 300 lbs.

Long Term Care Pressure Redistribution Mattress

The Gravity 7 Long Term Care Pressure Redistribution Mattress by Drive Medical uses a multi-layered, high density foam to provide optimal pressure redistribution for individuals in long term care facilities. The top layer of foam is high resilient and die-cut, which provides comfort and proper pressure redistribution. The ultra-soft heel section is uniquely designed to provide extremely low skin interface pressure, preventing pressure ulcers. The mattress cover is a 2-way stretch, water resistant, vapor permeable nylon ensuring users comfort and hygiene. The cover provides a low moisture transmission rate (MVT) which keeps the patient cool, dry and comfortable. The optional 3" elevated perimeter prevents patient falls and the Cut Out sections facilitates easy transfers in and out of bed.

Spenco Comfort Touch

Spenco Comfort Touch pressure reduction products are made from soft, fluffed hollow core fibers called Silicore® fibers. They help reduce pressure, don't matt down, and provide insulation against heat and cold. These fibers are permanently siliconized to help absorb friction and prevent moisture penetration. Products made with Silicore® padding are machine washer/dryer safe. Spenco Comfort Touch pads have waterproof sheeting on one side (ideal for incontinent situations) and cotton/polyester on the reverse side.

Safety Bed Rails are one of the most important security and accident prevention accessories used in the patient room today. That's why Invacare designs all thier safety rails to withstand heavy-duty use. Double chrome plated welded construction. Easy to attach to beds. The rails adjust up or down with simple pull button release. Spring loaded, self adjusting cross braces. Designed to meet all your needs.

Telescoping Rails

Standard 7/8" Tubing **201-105** **\$80.57 a pair**

Universal Crossbraces

Works in conjunction with other manufactures hospital bed rails, including Lumex, Scio-Tech, Everest & Jennings and some Invacare and Smith & Davis models.

Crossbraces

For 7/8" O.D. Tubing **211-906** **\$48.28 a pair**
 For 1" O.D. Tubing **211-902-BV** **\$71.97 a pair**

Half Rail

Features:

- › Attractive brown vein finish, constructed of 1" steel
- › Fits all hospital beds with steel frames
- › Ideal for maximum protection when bed is elevated
- › Easy to install

Half Rail **201-217 \$55.95 a pair**

\$55.95

T Style Half Rail

Features:

- › Attractive brown vein finish, constructed of 1" steel
- › For use with "Pan-Style" and Bariatric beds
- › Ideal protection without confining the patient
- › Provides maximum protection when bed is elevated

Half Rail **201-216 \$81.23 a pair**

Half Rails

Safety Bed Rails are one of the most important security and accident prevention accessories used in the patient room today. That's why Invacare designs all there safety rails to withstand heavy duty use.

Features:

- › Designed to meet all your needs
- › Double chrome plated 1" tube, welded construction
- › Easy to attach to beds
- › The rails adjust up or down with simple pull button release
- › Nylon coated flat channel crossbraces

Tube Tree

The Tube Tree safely and neatly routes all tubes, lines and cables from medical equipment to the patient. With these items out of the way, there is less chance of crimping, rolling over or pulling out tubes, lines or cables. The design clamps securely to most bed rails and I.V. poles. The product is made in the U.S. from indestructible polycarbonate and is resistant to all medical grade cleaners and disinfectants.

Tube Tree **275-720 \$30.83**

Security Rail for Home Beds

Secures against rolling out of bed. The rail is 30" long with a height of approximately 8" above the mattress. The rail is powder coated and made of steel for strength. The rail lowers by depressing snap buttons.

Security Rail

- Fits Any Size, 1 side **201-402 \$69.95**
- Fits Twin thru Full, 2 sides **201-401 \$99.95 a pair**

Reversible SlantRail for Home Beds

The new SlantRail is reversible, this unique bed rail provides two different handles in one. Depending on the need of the patient this handle provides a wide range of grasp and leveraging positions to better help promote bed mobility. The two tubular support tubes go far under the mattress with foam wraps to prevent handle slippage.

SlantRail **201-400 \$55.95**

Bed Cane

Features:

- › Free organizer with Bed Cane
- › Adjustable height, adapts to appropriate height for varying mattress thickness
- › Wide handle design allows for variety of grip positions
- › Steel components with powder coat finish provide long lasting quality
- › Handle folds down for storage and portability
- › Safety strap secures solid wood base to mattress
- › Installs on either side of the bed

Bed Cane **201-354 \$64.95**

30" Pivot Safety Half Length Bed Rail

Features:

- › Collapsible rail folds down to side of bed to allow user to get out of bed or provide space for making bed
- › Reversible - Can be placed on either side of the bed

Specifications:

- › Width of Rail: 30"
- › Height of Rail: 23" high from the base of mattress
- › Gap between Rails: 3"
- › Attaches to any home or hospital bed with safety strap
- › Weight Capacity: 400 lbs

Pivot Rail **201-209 \$79.95**

Bed Rail Advantage

Feature:

- › Free Organizer
- › Pops out of the box ready to be placed on any bed
- › Heavy duty steel with powder coat provides long lasting quality
- › Handle folds down for storage and portability
- › Safety strap secures base to bed frame and mattress
- › Foam grip handle, closed cell foam is easy to sanitize
- › Fits on either side of the bed

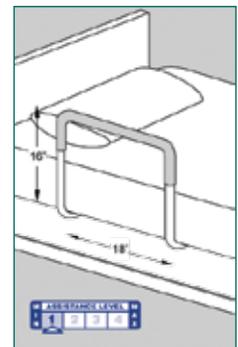

Bed Rail Advantage **201-364 \$63.95**

AssistaRail

The AssistaRail™ is an “inverted U” style bed rail for home beds, providing a unique combination of occupant safety and in-bed mobility

Benefits:

- › Easy Installation - Entire “inverted U” shaped rail installs in minutes with basic tools, simply slides between mattress and box spring. Safety strap and anti-slide grips hold rail from shifting during use
- › Sleep Safely - Effective rail design allows for in-bed mobility and bed queuing (gives an idea of where the mattress edge is located)
- › Transfer Safely - Optional AssistaCane, can be attached to the AssistaRail, providing a fixed gripping surface for improved standing support that reduces wrist strain or upper body twisting
- › Comfortable Foam Grip - Long durable grip covers both horizontal and vertical parts of the rail to allow versatile gripping and handling (non-latex material)

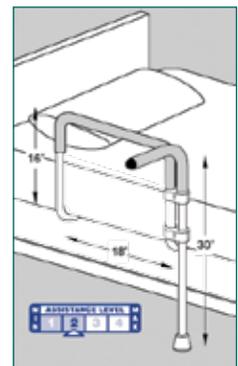

Rail legs extend 24” under mattress

AssistaCane

The AssistaCane™, is a fixed handle providing solid support for transferring in and out of bed. It provides a surface that minimizes wrist strain and twisting during transfer operations.

AssistaRail

Standard **201-370 \$90.00**

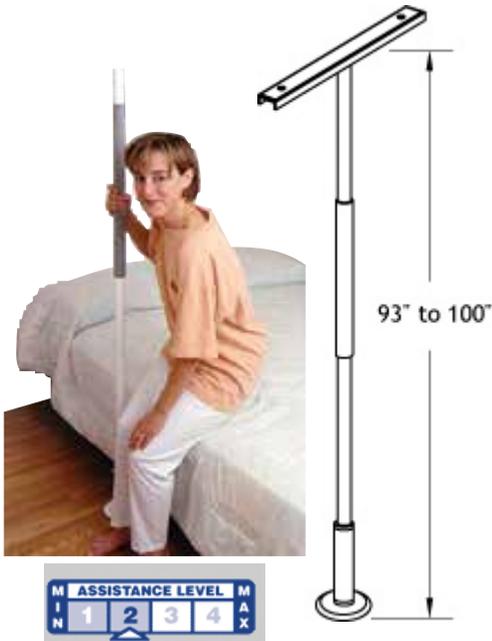

Rail legs extend 24” under mattress

SuperPole

The SuperPole system should only be installed between floors and ceilings of solid construction or injury may result. The SuperPole system should not be installed on loose floor coverings, in rooms with radiant ceiling heating, in mobile homes, or in suspended or angled ceilings. Recommended weight limits are 250 lbs. / 114 kg for all models; no more than 150 lbs. / 70 kg. should be exerted on trapeze system (for repositioning and sitting up assistance only).

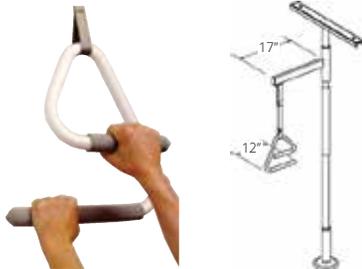

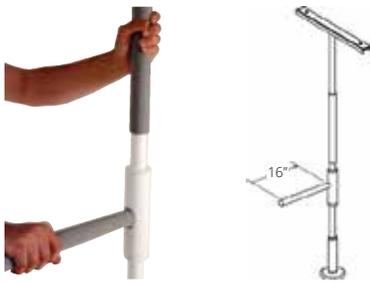

Features:

- › Ease of installation, can be installed or relocated with out drilling, screws or damage to the floor or ceiling
- › SuperPole can be installed in virtually any area of a room, exactly where it is needed. Custom heights of 120" to 140" are available
- › High quality, durable hand grip, particularly useful for limited grip strength
- › Clean and modern design blends with any home decor
- › Secure, rubber pad interface on both top and bottom
- › Can be used beside a bed, bath, toilet or chair
- › Toe friendly, small, low profile base plate does not interfere with movement
- › Heavy gauge steel construction

SuperBar

Unlocks and pivots freely to move with you step by step, yet locks every 45 degrees to assist with standing and sitting. Automatically locks when released preventing forward or lateral falls. Full support when taking two or three steps. Works for the Bedroom or at the Bathtub and Toilet.

SuperTrapeze

Includes the innovative e2 trapeze handle with a "ladder like" set of two rails that allows the user to more easily climb up to a sitting position. Unable to be used with Extension Tube.

SuperTray

The plastic tray and non-slip pad can be removed for cleaning or transporting meals. Frame snaps on at virtually any height, tray frame pivots around the pole.

SuperPole

- 250 lbs. Weight Capacity
- 450 lbs. Weight Capacity
- Extension Tube for 201-357 (increases range from 99" to 121")
- SuperBar add-on
- SuperTrapeze add-on
- SuperTray add-on

- 201-357 \$164.47**
- 201-358 \$296.05**
- 201-362 \$78.33**
- 201-359 \$108.57**
- 201-360 \$134.29**
- 201-361 \$134.29**

Firmly supported by a simple jackscrew expansion between floor and ceiling, the SuperPole gives a generous range of fit.

Bed Rail Pads

Made with naugahyde, 1" foam, and ties for quick attachment to bed rail. Special sizes available upon request. Adds extra comfort for patient by covering hard metal bars with attractive 1" pad. Specify color from page 158

Bed Rail Pads

- 14"x48" **202-1CL \$67.21 a pair**

Ocelco Pull String Monitor

The newly redesigned Ocelco string monitor provides unparalleled value that is rich in features and low in cost. The case is constructed of a durable ABS plastic that can withstand the rigors of institutional use. All the alarm settings are located inside the battery compartment making the monitor compliant with JCAHO standards. The mounting clip is now made of an indestructible stainless steel and is Guaranteed Not To Break! The pull cord is adjustable in length. A new unique alarm tone provides differentiation from other alarms in the facility, such as door or wandering alarms. The battery compartment features a hinged design that is permanently attached to the case. No more lost battery covers! The cover also features a dual function closure, including a snap-to-close design as well as a screw for increased tamper resistance.

4 Hooks	308-006 \$58.02

Stainless Steel Deluxe 5 Leg I.V. Pole

2 Hooks	308-003 \$85.71
---------	------------------------

I.V. Ceiling Pole

Adjustability: The I.V. Ceiling Pole is permanently affixed to the ceiling and it easily turns both ways 360° and moves over the bed in either direction on its own track. The I.V. support pole is completely movable and telescopic, allowing it to be locked into position at any height needed by a simple twist of the wrist.

Comfort and Safety: With more freedom of movement, the patient is able to rest in any chosen position. The device provides greater safety, removing the risk of accidental tipping.

Practical: The I.V. Ceiling Pole does not take up any valuable floor space, either in the intensive care unit or the patients room, facilitating foot traffic and circulation in the area.

Hygienic: Being anchored to the ceiling, this I.V. pole eliminates direct contact with children, other nonprofessionals and the danger of passing contagious disease and infections.

Drive Medical Stand-Assist Lift

This stand-assist lift by Drive Medical provides patients with safe, stable assistance while standing, transferring or toileting. A extra-wide, non-skid foot plate forms a stable base for foot positioning and a soft, padded adjustable leg support includes a support strap to secure legs. The lift includes a convenient four sling attachment points that enable the lift to accommodate a variety of stand-up sling designs. Its 24 V DC motor is powerful and reliable, featuring an emergency stop button and manual lowering device. The motor includes a removable rechargeable battery that charges quickly to eliminate down time. The battery, complete with a charge meter, will alert you both when charging is complete or when it may be necessary (below 50%) with an audible tone. Even transportation is simplified with easy-roll 4" casters that provide stability and easy maneuverability over a variety of surfaces. A 4.5" under-bed clearance allows the lift access under most long-term care beds.

Hoyer® 4-Point Slings

Durable polyester with closed-cell foam padding for comfort. Bathing slings are fast draining and drying nylon mesh. One-piece slings provide easy position adjustment of patient.

Features:

- > 4-point position slings for a secure, safe & comfortable transfer
- > No chains....No more swing or sway
- > Special "U" shape allows easy on and off of patient
- > Semi-rigid design won't bunch up, protecting fragile bones or tissue and giving comfort and security
- > Leg straps unhook and quickly withdraw for toileting
- > Slings fit all Hoyer Lifters with 4-point cradle, reducing sling inventory

Note: Slings are for Hoyer® Lifters with 4-Point attaching cradle ONLY, if you want to use these slings on the Classic Hoyer® Lifter you must convert your lifter with a Retro-Fit Kit on page 117.

A2 Anti-Microbial Orbitz Cubicle Curtains

All Cubicle Curtains are manufactured with inherently fire retardant (IFR) fabric; the fire retardancy lasts through the life of the curtain. The top FR nylon mesh with 1½" woven, snag free header, combined with our #2 grommet, provides superior durability and long lasting performance. We warrant our labor and materials for one year to be free of defects under normal handling conditions and when care instructions are complied with fully. Curtains are shipped within 10 business days of your order.

**For curtains below 90" in height, the mesh will be 20".
 For curtains 90" and above, the mesh is 28."**

Colors: 01-Cabernet, 02-Ecru, 03-Eggnog, 04-Federal, 05-Garland, 06-Kiwi, 07-Sandstone, 08-Zephyr.

Curtains are available without mesh, please call Customer Service for pricing.

Legacy Wall Mounted Clock Aneroid Sphygmomanometers

The Legacy wall mounted clock aneroid sphygmomanometer is designed for easy use in the hospital, clinic, or ambulance. The extra large blue EZView™ faceplate with luminescent dial, numerals, and needle allow easy readability in the most demanding situations, including low level lighting conditions, provided the unit has been exposed to light prior to use. Special mounting bracket allows unit to swivel for easy readings. A built-in cuff storage space eliminates the need for a separate cuff storage basket. The unit comes complete with 8 foot coiled tubing, deluxe calibrated blue nylon cuff, and a deluxe air release valve. Includes all necessary mounting hardware. This unit is covered by a Ten Year Calibration Warranty and Five Year Warranty on the inflation system.

Wall Mounted **264-206 \$108.80**

Legacy Mobile Clock Aneroid Sphygmomanometer

The Legacy floor clock aneroid sphygmomanometer is designed for easy use in the hospital, nursing home, or clinic. The extra large blue EZView™ faceplate with luminescent dial, numerals, and needle allow easy readability in the most demanding situations, including low level lighting conditions, provided the unit has been exposed to light prior to use. Heavy base design makes the unit easy to move, while providing stability to prevent tipping. The height is easily adjustable to fit the needs of the individual user. A built in cuff storage area eliminates the need for a separate cuff storage basket. The unit comes complete with 8 foot coiled tubing, deluxe calibrated blue nylon cuff, and a deluxe air release valve. Latex-Free inflation system made from the finest neoprene available, and is covered by a Five Year Warranty. This unit is covered by a Ten Year Calibration Warranty.

Latex-Free Replacement Bladders

In response to an increasing occurrence of allergic reactions to latex and a corresponding increase in the demand for items that are Latex-Free, we are pleased to introduce our comprehensive line of Latex-Free products. Latex-Free inflation systems use only the finest neoprene available. Neoprene has the added benefit of being more resistant to environmental and chemical factors that generally reduce the life expectancy of traditional latex products. Latex-Free inflation systems, parts and accessories made with neoprene components are backed by a Five Year Warranty.

Therabath

Paraffin is able to absorb & retain a great amount of heat. The Therabath takes advantage of paraffin's heat-retaining capacity in a simple process called heat transfer. Very simply, the heat that goes into melting the paraffin is released when it solidifies into a custom-fit "glove", transferring the heat deep into the affected area. Each dip in a Therabath delivers a layer of fast acting heat therapy-without drugs!

Drive Medical PainAway Wireless TENS

- › Can be used for chronic and acute pain on most areas of the body.
- › Wireless design with rechargeable remote and receivers – no batteries to purchase.
- › Sleek LCD Remote controls up to 3 wireless receivers with ‘snap connectors’ to electrodes.
- › Long lasting electrode pads for up to 30 uses.
- › Dual Channel system delivers twice the power as conventional TENS units.
- › Provides constant current throughout each treatment.
- › **Amplitude range:** maximum: 50V-90V; minimum:0-10V(1 KO load).
- › **Frequency:** 1.2-60Hz(±15%).
- › **Pulse:** 100µS(±30%).
- › Comes complete with LCD Remote Control, Two Wireless Receivers, One Large Long Lasting Back Electrode pad, Two 2"x3" Long Lasting Electrode Pads, Recharging Kit, Quick Start Guide and Instruction Manual.

Drive Medical PainAway Wireless TENS **276-820** **\$59.95 DISC.**

Portable Dual Channel TENS Unit with Electrodes and Carry Case

- › Comes complete with carrying case, 2 lead wires, 9-volt battery, 1 package of 4 pre-gelled electrodes and operating manual
- › Designed for rehabilitation and physical therapy
- › Dual isolated channels
- › For chronic, acute and postoperative pain
- › Intensity control is adjustable from 0-80 mA, 500 load
- › Metal belt clip
- › **Mode selector:** Constant
- › **Pulse frequency:** adjustable from 2-150 Hz
- › **Pulse width:** is adjustable from 40-250 micro-seconds
- › **Wave form:** asymmetrical, bi-phase, square pulse

PMI Electrode Current Dispersion

- The unique manufacturing processes and materials used in PMI electrodes provide a uniform current dispersion throughout the desired treatment site of each electrode. This uniform current dispersion provides the maximum treatment to the entire electrode surface.
- A leading brand electrode and a PMI electrode are placed on a "Current Dispersion Meter". An electrical current is passed through each electrode for a period of 60 seconds. The electrical voltage output is identical for each electrode
- The PMI electrode displays optimal current dispersion while the leading brand electrode has limited dispersion around the lead wire.

Compact Regulators

CGA-540 NUT and Nipple Inlet and Hose Barb Outlet Connections

Click Style Regulators

Features:

- › Aluminum body with brass inlet chamber
- › Tested to CGA standards which include ignition testing
- › Dial-in flow control
- › Maximum inlet pressure 3000 psi
- › Sintered filter for additional safety and to extend regulator life
- › Internal reseating relief valve protects against over-pressurization
- › 1½ diameter gauge
- › Designed for pediatric, homecare, hospital and emergency applications

Compact Regulator with CGA-540 Nut and Nipple Inlet and Hose Barb Outlet Connections

15 psi, Flow Settings $\frac{1}{64}$, $\frac{1}{32}$, $\frac{1}{16}$, $\frac{1}{8}$, $\frac{1}{4}$, $\frac{1}{2}$, $\frac{3}{4}$, 1, 1½ and 2 LPM	311-401	\$59.70

Oxygen Conserver **311-400** **\$179.54**

Power Neb Ultra Nebulizer

Built in neb kit holder for hands free use. Comes complete with disposable neb kit. Delivers consistent particle size of <5 microns and fast treatment times. One of the smallest economy neb compressors available today at only 3.2 pounds.

Power Neb Nebulizer 207-279 \$31.49

Voyager™ Pro

The Voyager™ Pro is a compact and lightweight portable nebulizer which utilizes silent vibrating mesh technology to deliver treatment times in less than 10 minutes for most medications

Voyager Pro 207-280 \$93.73

JetNeb Plus Nebulizer

Inspiratory valve delivers more medication. Expiratory valve wastes less medication. Maximum particle size of 3.4 µm. 92.6% of medication is converted into fine mist. Includes mouthpiece and air tube.

JetNeb Plus 12/cs 207-276 \$97.18

POLARIS® CPAP

INVACARE POLARIS (TM) CPAP The Invacare Polaris(TM) Continuous Positive Airway Pressure (CPAP) device is designed to make life easier for the patient, as well as the clinician. That is because it has one-button operation, low noise level, and light-weight compact design offers the patient maximum convenience. At the same time, its simple set-up, reliable performance, and compliance monitoring features make the Polaris the clear choice for the clinician. It is obvious the innovative Polaris is the perfect solution to meet patient needs.

Specifications:

Operating Pressure: 4-20 cm H2O 1 cm H2O increments
 Ramp: 5,10,20 & 30 minutes
 Power: Input Supply: 240 Volts, 60 Hz
 Air Filter: 45-60 ppi foam, reusable

Polaris EX CPAP with Carrying Case

with SoftX and Polaris EX EZ-Fill Heated Humidifier with Air Tubing, IQ Gel Cushion Mask, Connector Tubing and Large Headgear Strap

207-202 \$488.35
 207-188 \$378.75

Polaris CPAP with Carrying Case

with Air Tubing
 with Air Tubing, IQ Gel Cushion Mask, Connector Tubing and Large Headgear Strap

TKO Turning Knob Operator

People with hand disabilities will benefit from this turning device. It will work on any non-round control knob or appliance handle. Measures 2¼" in diameter but will grip larger irregular-shaped knobs.

Adjustable Gripping Tongs

Jaws adjust from zero to 3 1/8".

Multi-Use Adjustable Tongs

- > Turns Knobs
- > Pulls Out Plugs
- > Opens Bottles, Jars or Vials
- > Picks up Pins, Nails or Coins

Gripping Tongs 275-142 \$73.95

One-Way Straw

Straws with one-way valves stay filled with liquid after removing from lips to eliminate sucking in of air from an empty straw. Straws can be cleaned. Each package includes one 10" and one 7" straw with ¼" holes.

Straw 275-122 \$15.15

Foam Tubing

Use to build up tool and utensil handles. Tubing has a slip resistant coating, does not absorb water, and is dishwasher safe up to 125°. Twelve-inch long tubing can easily be cut to any length with scissors.

Foam Tubing

- 6 Tan, ¼" I.D. and 1" O.D. 275-115 \$14.65
- 6 Red, 3/8" I.D. and 1 1/8" O.D. 275-116 \$14.65
- 6 Blue, 5/8" I.D. and 1 1/8" O.D. 275-117 \$14.65

Flexible Utensils

Ideal for evaluating self-feeding needs. Versatile utensils may be angled or positioned in a variety of directions. Foam handle is 1" in diameter and can be customized to fit a user's grip. Each utensil weighs only 4 oz. and measures 14" long. Clean with warm, soapy water.

Utensils \$19.65
Fork 275-113
Tablespoon 275-114

KEatery Weighted Utensils

KEatery Weighted Utensils are designed for those individuals afflicted with Parkinson's Disease, Ataxia, or other illness or injuries that cause tremors of the hands. The heavy weight of these utensils steady the persons' hand to allow them to eat. All 18/0 stainless steel construction and dishwasher safe. KEatery Weighted Utensils weigh an average of 7.2 - 7.5 ounces.

Utensils \$12.67
Fork 275-185
Knife 275-186
Teaspoon 275-187
Soup spoon 275-188

Easy Risers

Strong: A set of four Easy Risers will support a 3,000 lb. van

Portable: Easy to take along when traveling

Sanitizable: Just throw them in the dishwasher

Adaptable: Easy Risers come in 2", 3", 4" and 5" heights with adapters. Simply select the height adjustment required and attach them to the base of the furniture

Affordable: A reasonable alternative to a lift chair or new furniture

Easy Risers \$24.97 set of 4

Four 3" 275-194

Giant-Face Playing Cards

Enlarged faces and print on these standard-size playing cards.

Playing Cards 275-111 \$9.95

Card Holder

Designed to be free standing on a table top or held in the hand. holds up to 15 cards. Set of 2.

Card Holder 275-139 \$11.17

Portable EZ-STEP

Features:

- › Reduce the height of each step by 50%
- › Reduce the range of motion of the knee and hip
- › Reduce muscle activity
- › Foster greater independence
- › Enjoy access to virtually any building with stairs
- › Affordable
- › Portable, take along when traveling

Lamp Switch

Fits most standard lamp threads.

Switch 275-105 \$10.60

Standard Assist Reacher

Adds 32" inches to arm to reduce stretching and bending when picking up objects. Ideal for individuals with limited hand strength. Ergonomically designed trigger for use with the whole hand. Jaws rotate 360°. Serrated jaws allow for secure grip. Lightweight aluminum construction. Limited 6 Month Warranty.

Standard Reacher

32"

275-129 \$15.50

Standard Reachers

High quality, durable aluminum is extremely lightweight. Shape of the serrated jaw and flexible foam rubber tip, which conforms to the contours of any object, work together to ensure a firm, secure grip. Hands remain comfortable on the ergonomically designed, trigger-action handle. Standard models feature a pulling lug that helps draw items toward the user. All models have a magnetic tip to retrieve small metal objects. Jaws open to 3" wide.

Reachers

26"

275-132 \$12.92

26" Folding

275-131 \$28.80

32"

275-130 \$25.05

Rubber Grip Reachers

Featherweight aluminum reacher with circular rubber tips provides a powerful and secure grip with delicate sensitivity. Easy-to-pull plastic handles with pistol grip action for comfortable holding and operating. The locking model has an automatic locking mechanism to hold the jaws securely around the object being retrieved. A flip of the thumb release lock. Optional wrist support easily conforms to the forearm with limited wrist and hand strength.

Reachers

30"

275-118 \$47.77

30" Locking

275-120 \$52.45

Dressing Aid Stick

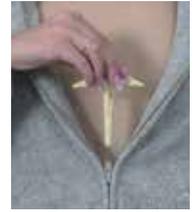

Helps with all dressing or undressing activities. 27" stick is designed to reach zippers, laces, socks, etc.

Dressing Aid **275-134** **\$8.95**

Zip-It

Makes zipper use easy with a 4" hook that grasps and closes the zipper. Enables individuals to dress without assistance.

Zip-It **275-133** **\$18.23**

Pantyhose Aid

Made from soft plastic to shape into a tube and place into the pantyhose. Insert feet and pull cords. Cords can be cut or joined together. Requires two hands to use.

Pantyhose Aid **275-106** **\$27.95**

Sock and Stocking Aid

Socks or stockings are drawn over the flexible plastic core. For additional help in reaching, attach socks to garters on the aid and insert foot. Continued pulling brings hose over the heel and onto the calf. Not recommended for one-handed individuals.

Sock Aid **275-104** **\$12.95**

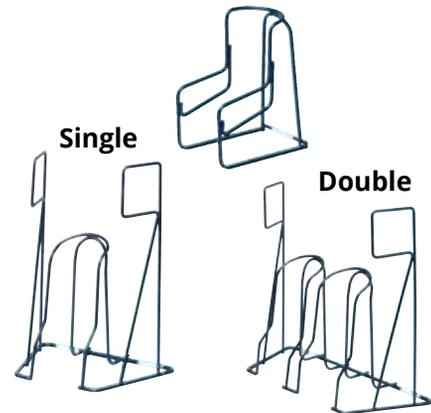

Ezy™ Sock Helper

The socks or stockings are simply stretched over the columns and toes are inserted. The continued motion pulls the sock all the way on, or stocking and panty-hose up to the knees for final positioning by pulling on the side handles. Three models assist in putting on socks, stockings and panty hose. These sturdy helpers are made of steel with smooth plastic coatings.

Sock Helper

- Single without Handles **275-155** **\$53.25**
- Single with Handles **275-147** **\$60.63**
- Double with Handles **275-148** **\$65.92**

Single without Handle

Button Hooks

These button hooks meet most buttoning needs. Ideal for those who lack fine motor coordination or have use of only one hand. Button Hooks are easy to use; simply slip wire hook through button hole, grab button with wire and pull button back through hole. Several styles available. Button Hooks with Zipper Pull, two aids in one. The hook answers buttoning needs. Zipper pull attaches to hard to handle zipper tabs, making it easier to zip. Adds leverage to small zippers.

Button Hook

- Rubber Handle **275-100** **\$14.85**
- Foam Handle **275-102** **\$16.43**

Button Hook with Zipper Pull

- Plastic Handle **275-101** **\$21.83**
- Rubber Handle **275-103** **\$18.68**

Button Hooks with Zipper Pull

Ocelco Heavy Duty Pill Crushers

NEW Quiet

Construction of the die-cast Metal Pillcrusher embodies chrome die-cast components and a stainless steel corrosion resistant receptacle. It's unparalleled strength and durability allow for years of simple and trouble free crushing. The Plastic Pillcrusher body is constructed of lightweight polycarbonate injection molded plastic, the receptacle fitting in both the handle and base are stainless steel to maximize power for crushing. Available in four decorative colors. Both metal and Plastic pillcrushers are backed by a two year conditional warranty against defects and workmanship.

Features:

- Easily reduces pills to powder
- Perfect for hospitals, nursing homes and pharmacies
- Mounts to med-carts, table tops, etc. with mounting base

Mounting Base for Metal or Plastic

\$64.95

New Changes mean a 50% Quieter Pill Crusher!

Pills crushed between two 3/4 oz. soufflé cups or the NEW 4" x 2" Sani-Safe Crush Bags

Rubber Base Pads reduce reverberation between Pill Crusher and Table Surface

Nylon Washers reduce reverberation between the Handle and Base

NEW Metal Pill Crusher		Reg.	Sale
Metal Pill Crusher	104-233	\$74.69	\$64.95
Mounting Base (Blk)	104-237	\$22.02	\$19.15

Place pills in paper cup, then place inside crusher.

Cover with second cup to prevent cross contamination.

Squeeze handles with only enough pressure to break the pill. Move the handle up and down lightly while rotating the cups.

Remove cups. Now you are ready for next use.

Plastic Pill Crusher	Reg.	Sale

 104-696 \$21.79 \$18.95

Uses 2 1/2" X 2" Sani-Safe Crush Bags

Pill Crusher Bags

Get the Most out of Your Medication!

Due to its patented technology, Ocelco's bag retains only a fraction of the medication compared to the rest.

Features:

- › Lowest Medication Retention after Crushing
 - › Does not imbed medication into the bag
 - › Ultra Thin and More Durable than the Competition
 - › 1/5th of the Weight of the Competition
 - › Save \$\$ on Shipping
 - › Replaces Souffle Cups with the Metal Pill Crusher
- Made in the USA

104-656 2 1/2" X 2" Roll of 100 **\$5.75**
104-661 4" X 2" Roll of 100 **\$5.75**

Color Curve Analysis:

Clearly shows Sani-Safe Crush Bags have a significant advantage over the competition.

The others use a softer, thicker poly plastic which allows for a significant amount of medication to imbed into the bag during crushing. Imbedded medication has a tendency to capture more of the medication in the bag resulting in reduced medicinal effectiveness.

3/4 oz. Souffle Cups
