

Mobile Care Station

Integrated with **PointClickCare** EHR System

Scalable and Customizable Solution

Features and Benefits

- **Scalability** - Choose only vital signs devices that you need to control the facility's device costs.
- **Time Savings** - Collected Vital Signs measurements automatically populate into **PointClickCare** EHR Eliminate the need to manually enter measurements into **PointClickCare** EHR and reduce personnel costs.
- **Error Reduction** - Fewer manual entries by facility personnel Reducing opportunity of human error.
- **HIPAA Compliant** - Complex encryption and authentication measures meet or exceed all HIPAA requirements - FORA Mobile Care Station solution potentially reduces your overall HIPAA violation exposure.
- **Advanced Medical Devices** - Unique ForaCare 2-in-1 D40 Pro device offers both Blood Pressure and Blood Glucose monitoring solutions in one device - Eliminate the need to buy two separate devices, thereby reducing your cost.

ForaCare®
